ALIEF SUKMA DEWANTA

INFORMATION SYSTEMS GRADUATE | BUSINESS & TECHNOLOGY ANALYST

Surabaya, Indonesia (open to relocation) | aliefsd84@gmail.com | +62 819-3678-1515 | linkedin.com/in/aliefsd84

Graduated Oct 2026 (official convocation: Oct 26, 2026) | GPA 3.66/4.00

PROFILE

Management Information Systems graduate (GPA 3.66/4.00) from Telkom University with broad, hands-on experience across requirements analysis, Enterprise Architecture (TOGAF), IT governance (COBIT 2019), data engineering, and User Acceptance Testing. As Project Coordinator and Requirement Analyst, translated business needs into functional requirements and UAT scenarios, coordinated developer teams through full SDLC cycles, and validated delivered systems against Acceptance Criteria. Two-semester Enterprise Architecture Laboratory Assistant and co-author of a published TOGAF ADM 9.2 IT Blueprint and a COBIT 2019 IT governance research paper. Built a Python-based stock forecasting system and a 1.5M+ row big data pipeline. Google Project Management Certified, with leadership experience as Chairperson of a 40+ member student legislative council. C2-level English communicator (EF SET 77/100).

SKILLS

- **Requirements & Business Analysis:** Requirements Gathering, User Stories, Acceptance Criteria, Business Process Analysis, Functional & Technical Design, Stakeholder Management
- **UAT & Quality Assurance:** UAT Scenario Design, Black-box & White-box Testing, Regression Testing, Defect Tracking & Reporting, Test Documentation
- **Enterprise Architecture & Governance:** TOGAF ADM 9.2 (Business, Data, Application, Technology Architecture), Visual Paradigm, COBIT 2019 IT Governance, IT Risk & Compliance Assessment, IT Strategic Planning
- **Data & Analytics:** Python (pandas, statsmodels, arch, pmdarima, Streamlit), SQL, HTML/CSS, Power BI, Apache Superset, ETL/ELT, Data Warehouse, Hadoop HDFS, Apache Kafka, Spark SQL, Time-Series Forecasting
- **Project & Delivery:** SDLC (Waterfall & Agile Principles), Project Coordination, Scope/Timeline Management, Jira, Trello, GitHub
- **Tools:** Microsoft Excel (IF, VLOOKUP, Pivot Tables), Microsoft Word, Microsoft PowerPoint, Figma, Laravel, MySQL, Odoo ERP, Google Cloud
- **Soft Skills:** Leadership, Communication & Presentation, Problem Solving, Analytical Thinking, Attention to Detail, Adaptability

EDUCATION

B.S. Management Information Systems | Telkom University

2022 – 2026 | Surabaya, Indonesia | GPA 3.66/4.00 | Graduated Oct 2026 (official convocation: Oct 26, 2026)

- Relevant coursework: Enterprise Architecture, IT/IS Governance, IT/IS Strategic Management, Information Systems Security, Data Warehouse and Business Intelligence, Big Data Management, Business Process Management, System Analysis and Design, System Testing and Implementation, Project Management for Information Systems.
- Thesis: Stock Price Prediction for PT Pertamina Geothermal Energy (PGEO) Using ARIMA-GARCH, Implemented as a Web-Based System (Grade A).

Winter School / Pre-Exchange Program | Hanyang University, South Korea

Dec 2025 – Feb 2026 | GPA 4.50/4.50 (A+, A+)

- Business, Management, Marketing, and Related Support Services.

PROFESSIONAL EXPERIENCE

Project Coordinator (Internship) | CV. Netafarm Indolestari

Jun 2025 – Aug 2025 | Sidoarjo, East Java

- Led requirements gathering with stakeholders across 4 divisions, translating business needs into functional requirements, User Stories, Acceptance Criteria, and UAT scenarios.
- Coordinated a 3-person developer team over an 8-week Waterfall cycle in Jira to deliver a Laravel-based project management system (OKR Tracking, Kanban Board, Role-Based Access Control).
- Conducted black-box and white-box testing, logged and tracked defects, and performed regression testing before sign-off.
- Analyzed user survey data and project timeline/completion-rate data in Excel (IF, VLOOKUP) to support requirements validation and progress tracking.
- Presented progress and results to stakeholders and obtained sign-off/approval before deployment; received an official certificate of appreciation.

Requirement Analyst (Academic Project) | CV. Dimas Djaya Teknik

Sep 2025 – Dec 2025 | Surabaya, East Java

- Led requirements analysis for a multi-branch cold storage temperature monitoring system, managing scope and tasks in Trello and documenting User Stories, Acceptance Criteria, and UAT scenarios.
- Designed the application architecture (Laravel, PHP, MySQL, Python-based API) and coordinated with the technical team on functional modules (temperature monitoring, anomaly detection, preventive maintenance).
- Used VLOOKUP and Pivot Tables in Excel to consolidate temperature data across branches into comparative monthly, per-machine, and per-branch visualizations, and built the master data template for the system's Excel export feature.

- Logged and tracked defects, performed regression testing, validated delivered features against Acceptance Criteria, and obtained stakeholder sign-off.

Laboratory Assistant, Enterprise Architecture | Telkom University Surabaya
Sep – Dec 2024 and Sep – Dec 2025 (two semester appointments) | Surabaya, East Java
- Developed course modules and graded case-study assignments applying the TOGAF framework.
- Monitored and mentored student groups building TOGAF-based enterprise architectures in Visual Paradigm for organizations with 50+ employees.

ERP Implementation Team Member (Course Project) | Nuhsantara Merchandise
Sep 2022 – Dec 2022 | Surabaya, East Java
- Implemented Odoo ERP with a 3-member team, configuring 3 modules (Web, Inventory, Purchase) to match the partner's inventory and procurement workflows.

ACADEMIC PROJECTS: GOVERNANCE & ARCHITECTURE

IT Governance Analysis and Design Using COBIT 2019 (Team Research Project) | PT Infoglobal Teknologi Semesta
2024 | 4-member team
- Co-authored a research paper applying COBIT 2019 to analyze IT governance, assessing 10 design factors (enterprise strategy, risk profile, threat landscape, compliance requirements).
- Identified priority governance objectives in risk, security, continuity, and compliance (EDM03, APO12, DSS05, DSS04, MEA03).

Enterprise Architecture Design (Academic Project) | Infoglobal, IT Division
2024
- Developed a TOGAF-based enterprise architecture for the IT division, modeled in Visual Paradigm.

DATA & FORECASTING PROJECTS

Stock Price Prediction & Forecasting Web Application (Thesis) | Telkom University
2026
- Built a web-based forecasting system for PT Pertamina Geothermal Energy (PGEO), an IDX-listed company, using Python (pandas, statsmodels, arch, pmdarima), Streamlit, and HTML/CSS.
- Applied ARIMA-GARCH to model the conditional mean and volatility of stock returns, and validated the system through testing against predefined requirements.

End-to-End Big Data Pipeline for E-Commerce Analytics | Telkom University
2026
- Built a 5-layer data architecture processing 1.5M+ rows from 9 datasets, with ETL/ELT ingestion (Hadoop HDFS) into a 3-layer data warehouse and streaming simulation (Apache Kafka).
- Ran descriptive analytics in Spark SQL and built an Apache Superset dashboard with 7 visualizations summarizing R$20.4 million in revenue and 118,000+ orders.

AI Chatbot with Model Context Protocol (MCP) Integration | Google Cloud Gen AI Academy
Apr 2026 – May 2026 | Surabaya, Indonesia
- Built an AI-powered chatbot integrated with MCP as a graded capstone project, applying Generative AI and cloud infrastructure concepts.

Sales Data Analysis Dashboard | Telkom University
2025
- Built a Power BI dashboard for PT Gelatik to analyze sales trends and product performance.

PUBLICATION

Designing an IT Blueprint as a Strategy for Developing the Smart Village Concept | Jurnal Masyarakat Mandiri (JMM)
2024
- Applied the TOGAF ADM 9.2 framework to develop an IT Blueprint and Smart Village roadmap, validated through stakeholder engagement and community surveys.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Chairperson, Student Legislative Council (DPM) | Telkom University Surabaya
Feb 2025 – Jan 2026 | Surabaya, East Java
- Led organizational governance and coordinated internal and external communication across the student government body.
- Managed information flow and documentation practices to improve transparency and accessibility across divisions.

Media & Information Commission Member, Student Legislative Council (DPM)
Feb 2024 – Jan 2025 | Surabaya, East Java
- Coordinated cross-divisional communication and publication workflows within the student government organization.

Vice Head, UI/UX Division | CODER, Telkom University Surabaya
Aug 2023 – Aug 2024 | Surabaya, East Java
- Led UI/UX division activities, organized workshops, and mentored junior members in design tools including Figma.
- Collaborated on cross-functional technology projects while maintaining design consistency and usability standards.

Keynote Speaker & Event Coordinator, DevOps x System Analyst: Modern IT Careers (Virtual Seminar)
Dec 2025

- Coordinated a virtual IT career seminar end-to-end and delivered a keynote session on System Analysis to a mixed technical/non-technical audience.

Master of Ceremony | Telkom University Guest Lecture; Himpunan Mahasiswa Sistem Informasi Welcome Party
Nov 2023 – Nov 2024

- Hosted a formal guest lecture on integrity and professional ethics, and the annual Information Systems Welcome Party for new students.

CERTIFICATIONS

- Google Project Management Professional Certificate | Google Career Certificates, 2026
- IBM Systems Analyst Professional Certificate | IBM / Coursera, 2025
- Google Cloud Gen AI Academy APAC 2026, Cohort 1 | Google Cloud x Hack2skill, 2026
- SAP Certified: SCM500, Business Processes in Procurement | SAP University Alliances, 2026
- SAP Certified: HR050, Business Processes in Human Capital Management | SAP University Alliances, 2026
